

Gumball Machine

Features

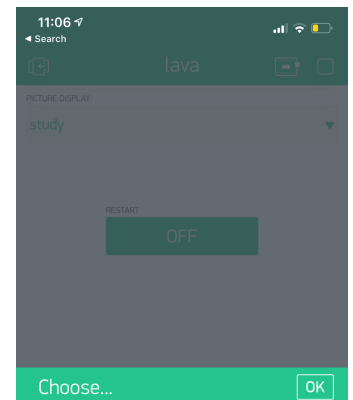

1. Three ways to get gum
 - a. Triple tap the table in “Music” Mode
 - b. Slide hand under machine in “Gumball” Mode
 - c. Push Button in Blynk app
2. Study Mode
 - a. Allows you to keep track of how long you’ve been working on <https://go.init.st/2vdubnt>
 - b. Restart timer through the Restart button on the Blynk app
3. Easily refillable gumballs on the roof of the box

Instructions

Pick the mode of the gumball through the drop-down menu of the Blynk app. The screen at the front of the box should match the mode with a corresponding picture.

Study Mode

During study mode, the machine will not dispense gum. Its only function is to keep track of the minutes passed since it’s been in this mode. No additional steps are needed, and you can see the time change on the <https://go.init.st/2vdubnt> dashboard. You can push the Restart button to start the timer over.

Music Mode

To use the music mode, tap the table three times. The gum should dispense.

Gumball Mode

To use the gumball mode, put your hand under the box. You should hear a tune play before it dispenses gum onto your hand.

Turn Off

To turn off the machine, there is a button underneath the lid. If you push it, the machine will turn off and will not be functional. To turn it back on again, push the button.
